### Bankrupt Peers.

The subject indicated by the caption under which we write is exciting a good deal of attention in England just now. It was not till the Act of 1861 that those distinguished personages called Peers were made amonable to the process of Bankruptcy, and it was not till last year that the functionaries of Bassing-hall street found such high game. It will be remembered that the Duke of Newcastle entered the Court of Bankrapicy last year. It is quostionable whether his grace has yet got out of it Since then that Court has been honoured by the presence of quito a crop of noble bankrupts, no lewer n crop of noble bankrupts, no lewer than four having sprung up within ten days. True, one of these succeeded in establishing his solvency; but the Earls of Westmoreland and Winchelsen and Lord De Mauley have been adjudicated bankrupt. The debts of one foot up £400,000, of another £130,000. In view of these circumstances the question has of these circumstances the question has very properly been raised as to whether bankrupt Peers are to be permitted to retain their seats in the House of Lords. A member of the House of Commons must vacate his seat when he fails to meet his money obligations, and it is well put, But if it be so why should not the rule extend to the house of Lords? Is there any reason why what is sauce for the goose should not also be sauce for the gander? The same paper adds. 'Still, whether their lordper adds. 'Still, whether the common sense to place themselves in timely accordance with public opinion and feeling in this matter, is mainly a question for themselves. If they do not move the flouse of Commons will be drived to take up the subject, now that the fashion of bankruptcy has set in amongst the peerage in 9, completious a manner. It is whispered that many of these noble insolvants continue, somehow or other, to enjoy most of the luxuries which are considered appropriate to their rank. The luxury of legislating for horest and solvent people is one that they must make up their minds to forego.' The principle involved in the controversy may well occupy the attention of the people of British Columbia. ships have or have not the common

FROM BIG BEND .- Mr P Reid, Govern ment Mail carrier arrived at Cache Creek from Big Bend on the 28th Nev. He refrom Big Bend on the 28th Nev. He respons that the greater portion of the miners have gone out to winter on Thompson tiver and other places. There are however, 17 men remaining on the creek who design to mine all the winter. Two companies of three have, a bedrock drain to their claims so that they will not be stopped by the frost. Those companies are making over wages and have a prospect of doing equally well all winter. On Komp creek a few man are engaged cutting a ditch to bring water on to a flat from which they have obtained very encouraging prospects. On the mountain between Seymour and Columbia river the snow is about 6 feet deep and being the first snow is very loose and difficult in snow-shoeing, in consequence of which Mr. Raid was detained tonger on his last trip than on any of the others, having been 36 days on the round trip from Cache creek to French creek and returning.

VICTORIA CEMETERY .- In pursuance of the \*Cemetery Ordinance, 1870,' the Board have drawn up a code of rules and regulations, together with a scale of fees, and the same together with a scale of fees, and the same have been sanctioned by the Governor and published in the Gazette. The scale of fees appears to us to be too high, and we fail to discover any provision to meet the case of persons who may not be in circumstances to pay the amount demanded. Following is the schedule of fees:

from Germansen creek was brought down by M. Guichon of Quesnelmouth, on Friday night, by whom it was purchased from the finder. It weighs 241 ounces, chased from the inder. It weighs 24; ounces, only about one-half of which is gold, the remainder being quartz. The nugget is waterworn. Its discovery gives rise to the hope that the existence of immensely rich quartz-reefs in the Omineca country will be determined during the coming season.

Big Bend .- A correspondent residing on French creek has been kind enough to send us an account of the public meeting held there some time ago to hear Mr Jessop upon the some time ago to near air Jessop upon the political situation. The meeting was largely, in fact generally, attended by the miners and others residing there. After Mr Jessop had addressed the meeting, apparently with much acceptance, a resolution was unanimously passed, endorsing his views on Confederation, Responsible Government and the immediate adoption of the Canadian Tariff. adoption of the Canadian Tariff.

AMAZEUR CONCERT .- The instrumental and vocal concert for the benefit of the funds of the Mechanic's Institute will be given to morrow evening at the Theatre Royal. An excelrow evening at the linearity royal. An excess the triprogramme has been prepared. The object is a most worthy one, and as the vocalists are all amateurs who have volunteered, the affair is rendered doubly interesting. Seats may be secured between the hours of 11 and 10's.

MISCELLANEOUS INTELLIGENCE.

The Fire Brigade have resolved on a grand ball to be held on the 28th inst. The weather continued fine and snow held off, although desired, with heavy frosts at night. On William Creek the mean temperature for the mouth of November was 30.78 degrees, the highest point reached being 60 degrees on the 16th, and the lowest one degree below zero, on the 4th. Referring to the pestal question, the Sentined remarks: "As Mr Barnard's contract for carrying the mails, which he has held so long expires on 1st March next, it is but right to remark that he has always been most energetic in his endeavors to carry them through with the least possible delay. He does not now either intend to succumb, although the contract for a year has been awarded to other parties, but will continue to run the express regularly, so travellers next summer may look egularly, so travellers next summer may look out, we think, for cheap fares."

THE Two SECTIONS .- A paper published on the banks of the Fraser, calling itself the Mainland Guardian, is urging the people everywhere on the Mainland to send petitions to the Governor telling him, amongst other things, that they are, to a man, opposed to the so-called Responsible Government, and the immediate adoption of the Canadian Tariff. This is pretty good for a mainland guardian, considering that every constituency in it has returned a representative pledged to support the so-called Responsible Government, and every constituency save one has pronounced in favor of the immediate acceptance of the Canadian Tariff! Of all the candidates whe ran during the late election, only one had the temerity to utter a doubtful word on Responsible Government. That candidate was the main after the Guardian's own heart, and he was beaten, badly beaten! Certainly our upriver contemporary is in glorious discord with public sentiment, in so far as Responsible Government and the Canadian Tariff are concerns ed. where on the Mainland to send petitions to

The interlude acts were all encored, and when the curtain was rung down for the last time, a general lecting of regret was expressed that a scare of filial duty necessitated the departure of the ladies by the steamer to-day. No young acresses have afforded more pleasure to Victoria audiences, nor have any given greater promise sof a brilliant and successful career in their profession than the Misses Pixley.

PICEPIT'S HOLIDAY SALE -A large amount of goods was disposed of yesterday by R F Pickett & Co, whose rooms were well filled with buyers. Dolls, toys, albums, fancy goods, glass and lacquerware, pull-boxes, and half-a-hundred other seasonable articles, were eagerly bid for. Opportuni-ties were afforded the trade in the disposal of goods by the case, instead of dividing them into small lote and spreading the articles all over the store. Another sale of a different class of goods for the holidays will probably be held this week.

PIPER is out with his annual budget o caricatures, in which noted local personages are produced in gingerbread. Most of the are produced in ginverbread. Most of the phizes' are well produced. Figures of the newspaper editors, a knight of the shears, a celebrated clam-chowder provider, two 'girls of the period,' and the notorious Dr Rheam, bending beneath the weight of a cross and swoman, created much morriment. When Piper became a confectioner a splendid sculptor was spoiled.

Toys AND FANCY GOODS .- Mr David Speneer's stock of fancy goods-all of fresh importation-challenges public admiration. Every description of goods for the holidays may be description of goods for the holidays may be found upon Spencer's shelves, and the prices at which articles are offered place him beyond the reach of competition. The friends of the young should call and inspect—we do not say buy,' because if one inspects he will be sure to buy—the stock.

SERIOUS ACCIDENT .- A man by the name Thompson, employed on a ranch at Nanaimo, had his leg broken by a falling tree. He was two days and two nights alone after the accident before he was discovered in his crippled condition. His leg was set by the surgeon of the Sparrowbawk and he was brought down on the Douglas yesterday. He is doing well.

NANAIMO AND COMOX -The steamer Sir Jas Douglas arrived from Nansimo and Co. mox yesterday at 4 pm with 12 passengers, 6 head cattle, 12 hogs- and a large quantity of farm and dairy produce. The Victor had completed her cargo and the Shooting Star had commenced to load.

WHO STOLE THE GEESE? -Stoaling is a mean business under almost any circumstances; but the person who stole a whole flock of geese from Mr Gilligan's family, just as Christmas approaches, must be a contemptible rascal. A reward of \$20 is offered for him. Who will catch the thief?

RICH DISPLAY. - The holiday repertoire of London House were displayed yesterday to admiring hundreds. The store resembled a holiday goods bazar where every conceivable article that exquisite tastes could devise or fivent was placed upon exhibition.

THE 20th or 22d inst, when the sun has reached its winter solstice, is fixed apon by scientists as the period when great physical changes of the earth's surface and floods and tempests will occur.

# Queen Victoria at Hallowe'en.

The Dundee Advertiser of Nov 4th reports

from Balmoral as follows:—
"The time-honored festival of Hallowe'er "The time-honored festival of Hallowe'en was observed at Balmoral Castle and partially in the surrounding district, on Monday evening. At a quarter to six the tenantry and servants on the eastern portion of the estate made their appearance by the approach, [each bearing a blazing torchlight. Marching past the front of the castle in regular order they proceeded to meet those of the western portion, who by this time were coming in view of the Boatpool. The scene presented as the party came along the head of the road was very imposing. When all had met in the park to the number of upwards of 200, the spectacle was heightened in effect by the darkness of the night. Headed by Her Majesty's piper the company returned in marching order by the approach to the front of the castle, where they piled their torchlights, and, with an abundance of ready fuel at hand, madeja tremendous fire instanter. Dancing was at once begun by the stalwart kilted lads, who tripped a highland reel, with bluzing terches in their hands, with an energy and spirit rarely equalled and never surpassed. The stirring strains of the bagpipes infused a heartiness and zest in a marked degree.

Her Majesty was outside watching the movements with seeming interest and satisfaction. Before the party left to continue dancing in the iron ball—room the health of the Queen was drunk with true Highland honors, and the different members of the royal family and the Marquis of Lorno were afterwads heartily pledged."

White Swellings

Are generally considered to be indications of a scrofulous tendency in the system, and the first thing to be done for their removal is to purify the blood and humors. Bristol's Saraparilla and Pills used conjointly, are possessed of the very properties required; they cleanse, purify, neutrize, and purge out of the system the bad humore which are the sole cause of the trouble.
